

SHARPSHOOTER

RULES: IDPA Rules

Created By: RicoCastro

START POSITION:

Shooter must crawl to shooting position, get into prone position and take out four progressively smaller steel targets at 60 to 70 yards

SCENARIO:

PROCEDURE:
When ready and while maintaining concealment, shooter will slowly crawl into shooting position, and get into comfortable prone position behind cover. Shooter will indicate when ready. Upon buzzer, shooter will engage four steel targets, from largest to smallest, in fastest time possible, moving to next target when obtaining a hit. Time score only.
