

We received several suggestions at our last couple of matches - more shotgun stages, more moving targets, more weapon transitions. WELL, we are going to do ALL of that in this month's match (Marc)- another SHOTGUN MADNESS MONTH. Bring shotgun and pistol. Bring water and layered clothing. And remember, our safety briefings start at 9:45am so we cannot guarantee you will be allowed to compete if you miss that briefing. ALSO the specific types of shotgun ammo recommended - some birdshot, your preferred buckshot, and at least one shotgun slug. If you have that fine, if not, we'll work something out. Anyway, check weather and range status before you come up. Call me with questions - Rico Castro - Urban Tactical Lead - 661-714-6963
